- EXPERIENCE**
- JUNE 2011 – PRESENT Freelancing at Marketlytics  
Web / Mobile Developer – [www.marketlytics.com](http://www.marketlytics.com)
- Working on Elance on projects relating to Web Designing, Web Development and HTML5 mobile apps. Using technologies like HTML5, CSS3, jQuery, PHP, MySQL, jQuery Mobile, Sencha Touch and PhoneGap to solve my customers' challenging problems.
- OCT 2010 – MAY 2012 PiMedia Society at University College London  
Web Administrator – [www.pimedia.org.uk](http://www.pimedia.org.uk)
- Responsible for PiMedia's online presence, developed and maintained their website. Initially the site had a single webpage and no web presence, within four months not only did they have a full news blog but also were also receiving 10, 000 page views per month. Using my creative design skills and advanced SEO techniques, their website has become a publishing medium as equally powerful as their magazine and newspaper.
- JUNE 2010 – FEB 2012 UCL Advance, London, UK  
Freelancing as Web Developer  
Worked on several projects, companies include Opean Energy, DIYDoctor, Animalagentz and Prempicker.
- For these internships, I used my PHP, MySQL, iOS SDK and Javascript skills to solve specific problems. These projects trained me to meet my clients' requirements and also to maintain a high level of quality in my work. It taught me organizing of my workloads, making time lines to adjust to my client's countless modifications and meeting the challenging deadlines.
